Psychiatry Resident Progress Note -
③ Adjusting well to new job.
Some minor problems w/a
coworker, but handled this
definitely appropriately. Concerned
that his son would like to see
the chief Psychiatrist "alone", and
that ex-wife's presence might
"inhibit" him from talking.
Does not know when next family
session will be. Considering
placing a personal ad in the
paper in order to meet women.
⑥ Grooming + appearance much
improved. Pt. dressing up
for work. Mood = bright, affect
flat range. Appears relaxed
+ confident.
w/ self.

OFF WEEK:

The attending physician was available and continues to provide supervision for the patients on an ongoing basis.

It reports general status is adequately stable. He denies inappropriate urges, cognitions. It continues employment as he seeks a new position. Family contact is supported.

Pt had the first face to face meeting
 w wife in 2 yrs. last wk. The meeting was
 w his therapist & there will be a F/U
 session soon. It was difficult for Pt.
 to see wife cry. He is somewhat
 closed to his feelings as he struggles w
 mild depression, shame & fear of
 failure. He is however pleased to
 have the opportunity to communicate w
 wife & see son in the future.

No other problems were presented.
H.W. Rec. he use personal journal to
reflect on experience & wife & son therapist.
Will continue to follow case.

PT reports general status is adequately stable & anxiety. He denies inappropriate urges / compulsions. PT continues PA employment & plans on returning to dispatching / communications field. This is supported.

He is anxious about the rescheduled meeting & son's therapist & ex-wife on [REDACTED]. PT fears confrontation & ex-wife & her family. He did a brief role reversal exercise to help reduce tension & fears & some benefit.

He further received his Hx. of "self pity" & recent positive changes in pattern.

PT is genuinely concerned for his adopted son William & a desire to connect in a healthy healing fashion.

No other problems were presented. Will continue to follow case.

He reports general status is adequately stable. He denies inappropriate urges/cognitions. He continues employment in PA. & fatigue. He is frustrated as ex-wife cancelled the meeting & he & step son therapist. He continues to struggle in an attempt to find meaning & a sense of peace concerning his abuse of step son. He displays a strong sense of remorse & guilt. He reviewed a progressive Hx. of isolation & loneliness from adolescence which continued well into his marriage. He had noted inadequacy, insecurity & underlying depression. These elements in addition to a dysfunctional marriage were in part related to his abuse pattern. No other problems were presented. Will continue to follow case.
